

TIFA ULV-HD Plus

FOR THE MOST EFFECTIVE SPRAYING TECHNIQUES

ULV, LV, AEROSOL, MIST SPRAY AND COLD FOGGING TECHNIQUES WITH FULL CONTROL OF "OUTPUT" FROM 0.10 LIT/HR UP TO 110 LIT/HR AND 99.9% ACCURACY OF PARTICLE SIZE SELECTOR

1. Unit is operated by 11 HP single cylinder or 18 HP twin cylinder 4-cycle, gasoline, air cooled internal combustion engine.
2. Unit is equipped with finely machined heavy duty turbine blower to produce air up to 200 km/hr to disperse chemicals up to 150 meters horizontally and up to 50 meters vertically.
3. The fog head, made of cast iron, attached to the machine has mobility of 360 degrees horizontally and vertically and all the internal parts of the machine are stainless steel.
4. A remote control device is available to run the machine from the inside of a vehicles cab.
5. 12-volt dry car battery is equipped with the machine for independent operation.
6. Unit is-equipped with either a 20 liter (5 gallon) or 60 Liter (15 gallon) stainless steel formulation tank.
7. Machine is equipped with a tachometer, hour-meter and ammeter which are located on the front panel.
8. The remote control panel consists of a heavy-duty pressure gauge, thermometer and high quality flowmeter, all mounted on a portable frame.
9. Dimensions of the unit are length 49" (122.5cm) x width 43" (1 07.5cm) x height 38" (95.0cm) and weighs 450 lbs. (200kg).
10. The only commercially available machine with a patented heavy duty silencer to minimize the noise level (less than 68 decibels).
